INSIGHTS

<1

Welcome to DigitalOcean

Browse popular solutions users are building on DigitalOcean. Not sure where to start? Let us help you understand where to begin.

Droplets

Flexible Virtual Machines

Spin up powerful, customizable servers with full control over your infrastructure.

Create Droplet

App Platform

Managed App Hosting

Deploy and scale full-stack applications directly from your git repository.

Create App

DigitalOcean AI

Unified AI Platform

Build and train AI agents or access multiple LLMs through one endpoint.

Create AI Agent

Managed Databases

Secure Data Storage

Create popular database engines with automated failover and backups.

### Backups

☒ **Enable automated backups**  
Restore your Droplet quickly if it fails. Configure backup frequency and retention.  
With usage-based pricing, pay only for the backup's restorable file size.

Plans

Usage-Based **NEW**

#### Backup Frequency

☒  **Weekly Backups**  
Each backup is kept for 28 days. \$1.20 / month  
20% of the cost of the Droplet

☐  **Daily Backups**  
Each backup is kept for 7 days. \$1.80 / month  
30% of the cost of the Droplet

#### Backup Window

Backups will be initiated, but may not complete during the 4 hours window

Day of the week

Time of day

Wednesday

12:00am – 4:00am  
Eastern Daylight Time

#### Additional Options

☐ **Startup scripts (Free)**  
Add scripts to run on initial Droplet boot up - great for repetitive or initialization tasks.

☐ **Add a worry-free Managed Database**  
Our scalable database cluster service includes daily backups with PITR, no downtime scaling, automated failover, and end-to-end SSL.  
\$15.00 / month

#### Quantity

Deploy multiple Droplets with the same configuration.

–

1

+

#### Give your Droplet a name

Can only contain alphanumeric characters, dashes, and periods.

ubuntu-s-1vcpu-1gb-nyc1

6>

### Authentication

SSH Keys

**Password**

 **Important** – Using passwords for authentication in production is not secure. For enhanced security, disable the root password and use SSH keys as soon as your Droplet is created.

#### Create a root password

Connect to your Droplet as the “root” user via password

#### Root password

2052Occ!07065Oasis

#### Password requirements

2052Occ!07065Oasis

9v

#### Tags

May contain letters, numbers, colons, dashes, and underscores.

Enter tag name

### Summary

 **Compute** \$6.00/mo

Plan Type: Basic  
CPU Option: Regular  
vCPU: 1  
RAM: 1 GB  
Disk: 25 GB  
Bandwidth: 1000 GB  
Slug: s-1vcpu-1gb

 **Weekly Backups** \$1.20/mo

Frequency: Each backup is kept for 28 days, billing starts after the first backup

**Total cost** \$7.20/month  
\$0.011/hour

**Add Payment Method and Create Droplet**
